Ho Chi Minh City, April *18*, 2025

To: - THE STATE SECURITIES COMMISSION;
- THE HO CHI MINH STOCK EXCHANGE.

Vietnam Fumigation Joint Stock Company (VFC) would like to send our best regards to the State Securities Commission and Ho Chi Minh City Stock Exchange.

Based on the business results of the first quarter of 2025 - Separate Report, Vietnam Fumigation Joint Stock Company would like to explain the reasons for the increase in profit after tax in the first quarter of 2025 compared to the same period in 2024 as follows:

Indicator	Q1/2025	Q1/2024	Increase/Decrease	Increase/Decrease Rate
Profit after corporate income tax	92,536,648,915	78,688,042,893	+13,848,606,022	+17.60%

The reasons for the increase in profit after tax in the first quarter of 2025 compared to the first quarter of 2024 are due to the influence of the following specific factors:

Factors	Increase/Decrease	Increase/Decrease Ratio
Net revenue from goods and service provision	+80,157,177,794	+8.30%
Cost of goods sold	+55,144,557,571	+7.50%
Selling expenses	+6,217,585,429	+5.27%
Administrative expense	+201,960,850	+0.84%
Finance costs	+150,427,111	+2.28%

Main cause:

- VFC increased sales activities, was flexible in its approach to customers, and increased solutions to serve key agricultural products such as Rice, Durian, Coffee, etc., causing net revenue from sales and service provision to increase by 8.30%, while cost of goods sold only increased by 7.50% over the same period..
- VFC has taken measures to strongly promote sales, marketing and advertising activities for sales and improve management to achieve expected sales, causing sales expenses to increase by 5.27%, management expenses to increase by 0.84%, and financial expenses to increase by 2.28%.

Above are the explanations of some of the main reasons why after-tax profit in the first quarter of 2025 increased compared to the same period in 2024.

We look forward to your consideration and approval.

Best regards./.
